

Basic Chemistry II

Contents

Chapter 1 Thermochemistry 1

- (1) Temperature and the amount of heat , 1
- (2) Thermochemical reaction , 1
- (3) Determination of reaction heat, 4
- (4) Usage of the given heat of reaction, 7
- (5) The application of Hess's law, 10

Chapter 2 Reaction rate and chemical equilibrium 13

- (1) The definition of the reaction rate 13
- (2) Factors which governs the reaction rate and the reaction rate equation, 14
- (3) Free energy of Gibbs, 18
- (4) Chemical equilibrium, 22
- (5) Pressure equilibrium constant, 24
- (6) The law of Le Chatelier, 25
- (7) Heat of reaction in the chemical equilibrium, 28

Chapter 3 Acids and bases (strong acids and bases) 30

- (1) The definition of acids and bases, 30
- (2) The strength of acid and base, 35

Chapter 4 Acids and bases (neutralization reaction) 43

- (1) Neutralization reaction , 43
- (2) Hydrolysis of the salt, 44
- (3) Ion product and pH of water, 47
- (4) Titration experiment for neutralization, 49
- (5) Complex neutralization titration, 54

Chapter 5 Acids and bases (ionization equilibrium) 57

- (1) What is the acid dissociation constant and base dissociation constant? 57
- (2) In the case of an aqueous solution of a strong acid, 59
- (3) In the case of an aqueous solution of a strong base, 61
- (4) In the case of an aqueous solution of a weak acid, 62
- (5) In the case of an aqueous solution of a weak base, 63
- (6) In the case of hydrolysis of salt made of a weak and + a strong base, 65
- (7) In the case of hydrolysis of salt made of a strong acid + a weak base, 66
- (8) Buffer, 68

Chapter 6 Oxidation – reduction 72

- (1) What is the oxidation and reduction?, 72
- (2) The definition of the oxidation and reduction, 73
- (3) Oxidation number, 74
- (4) Oxidizing reagent and reducing reagent, 78
- (5) How to make a reaction formula of the oxidation-reduction reaction, 82
- (6) Redox titration, 84

Chapter 7 Ionization tendency 89

- (1) What is the ionization tendency? 89
- (2) The reaction of the metal cation, 91
- (3) Reaction with oxygen in the air, 92
- (4) Reaction with water, 93
- (5) Reaction with an acid, 95
